Education

Computer Science / [Griffith College Cork](#) Ireland

Since September 2018

My Learning outcomes for Computer Science

- Systems Thinking. Analyze, design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
- Problem-Solving. Identify problems and formulate solutions for systems and organizations while reconciling conflicting objectives and finding compromises.
- Communication. Communicate effectively with a range of audiences.
- Teamwork. Work effectively as part of a team to develop and deliver quality software artifacts.
- Context Awareness. Design solutions using approaches that integrate ethical, social, legal, and economic responsibilities.
- Cultural and Global Awareness. Recognize the applicability of computing and evaluate its impact on individuals, organizations, and global society.
- Professional Practice. Evaluate and use appropriate methods and professional standards in computing practice.
- Professional Development. Explore historical, current, and emerging techniques and technologies, founded on a commitment to lifelong learning and professional development.

Skills: Javascript, ReactJs, GCP, Python

Journalism / [Maltepe University](#) Istanbul

From September 2013 to May 2017

I've experienced core journalistic skills with my journalism degree that has provided me; include researching, writing, interviewing, investigating and reporting. Developed technical skills like shorthand, editing, video, audio, web design and content management. Transferable skills include: intuition and resourcefulness; critical analysis; communication, both written and oral; time management; flexibility; teamwork.
